Once you decide on the size, I will send you an invoice and contract with information on timing, revisions, etc. Check, Credit Card, Zelle and Venmo are accepted.

The Process

Since I will not see your venue and figures in person, I rely on photographs to capture the ambiance of the evening. Often clients send me a link to their photographer's photos and I pick several to paint from that I feel best capture the event. I work with the client to choose the best photos to achieve the painting they have in mind.

After discussing the details of your painting (including timing), and reviewing any photos you provide, I will email you a rough sketch for your approval to show general layout and size of figures. The next step is to show you a proof of the painting in its final stages. You will have the opportunity to request minor changes at this point.
